Licence types

- **The business licence** is intended for companies and organizations (commercial and non-commercial).
- **The personal licence** is intended for private or home use on one computer by one person.
- **The student licence** is intended for students only.

Our products are licenced on a per installation basis, not per network, per site or per company (except an unlimited licence that is per company). If you have any questions regarding purchasing or registration, please send a letter to sales@likasoft.com. We will be glad to help you.

Enterprises, organizations (commercial and non-commercial), and also private persons using Archivarius 3000 program in a server mode for access of other users, should get the multi-user licence:

- If the program is used within the **limits of the company** the volume of the multi-user licence should be equal to quantity of employees of the organization which can use search (price from **EUR 45** to **EUR 995**). If the quantity of employees is more 100 enough to buy the unlimited licence at the price of **EUR 995**.
- If the program is used by **unknown quantity** of users (for example, at access of users through the Internet) enough to buy the unlimited licence at the price of **EUR 995**.

Telephone ordering

US and Canadian customers can place an order by calling:
+1 (800) 903-4152 (toll free) or **+1 (724) 850-8186**.

Customers outside the US can call at:

 **+49 221-31088-20.**

FAX ordering

To place a fax order, please click one of the registration links above, specify the "Fax" payment method and fill the web form. You will get detailed payment instructions, including fax numbers and printable fax form (for fax orders) after filling the web form.

Order by postal mail

The software can be purchased by postal mail by sending check or cash orders and the selected order form, filled in any part, to:

For US customers:

ShareIt! Inc.
PO Box 844
Greensburg, PA 15601-0844
USA

For customers outside the US:

element 5 AG / ShareIt!
Vogelsanger Strasse 78

50823 Koeln
Germany

Please be sure to leave one full line between the Street Address and the city and postal (zip) code.

Superior data and system security

Share-it! and RegNow hold **VeriSign certificates** for secure SSL (Secure Socket Layer) transactions. share-it! is also a licensee of the **TRUSTe Privacy Seal Program**. Their FraudShield was developed based on their experience in handling several million transactions. Our billing operators operate redundant systems for maximum system availability. You can be sure that your transaction is a 100% secure. This logic encrypts the data being sent to the server from the browser using high-level encryption technology. Once the data is received from customers on the RegNow/ShareIt Network, it may be required that the data be maintained for a certain period of time inside our private network. Encrypting the data means it cannot be viewed in plain text.

Archivarius 3000
will find the gist!
